

Pulse UI Next

Professional Documentation Guide

Pulse UI Next is a modern and fully responsive admin dashboard template built with **Next.js 16**, **React 19**, **TypeScript**, **Tailwind CSS v4**, and **shadcn/ui**. It is designed for SaaS applications, CRM systems, ERP solutions, HRMS platforms, analytics dashboards, and enterprise business applications.

1. Product Information

Pulse UI Next provides a scalable foundation for building production-ready web applications. It includes modern UI components, dashboard widgets, authentication pages, theme customization, dark mode support, and reusable layouts.

2. Technology Stack

- Next.js 16.x
- React 19.x
- TypeScript
- Tailwind CSS v4
- shadcn/ui
- Lucide Icons
- Recharts

3. System Requirements

Before installing Pulse UI Next, make sure you have: • Node.js 20 or later • npm, pnpm, or yarn • Modern web browser

4. Installation

Install dependencies:

```
npm install
```

Run development server:

```
npm run dev
```

Open: <http://localhost:3000>

5. Production Build

Create a production build:

```
npm run build
```

```
npm start
```

6. Demo Preview
